

Flexicell Demonstrates Stainless Steel Washdown-Suitable Palletizing System at Pack Expo, November 9-13, 2008, McCormick Place, Chicago, Booth N-3754

Ashland, VA...October 14, 2008...Flexicell, Inc., a leading robotic system integrator for packing and palletizing automation applications, will be demonstrating a stainless steel palletizing system suitable for complete washdown requirements and harsh conditions.

"This technology is just coming into the marketplace, and we are excited to be one of the first to show it at Pack Expo," said Hans de Koning, Flexicell president.

Flexicell will also be showing in live robotic demonstrations other new technology, including SmartCartR Automatic Guided Carts and case packing solutions for flexibles.

Flexicell, Inc.

Flexicell, Inc. is a leading robotic systems integrator, providing custom packing, palletizing, and material handling solutions such as case packing, assembly, feeding of product to other machinery, vision inspecting, collating, machine loading and unloading, conveying and palletizing. Since its founding in 1992, Flexicell has created systems for companies located throughout the United States and Canada in diverse markets such as food & beverage, pharmaceutical & medical, manufacturing, electronics, automotive, and household. Flexicell is an Authorized System Integrator for FANUC Robotics and is headquartered in Ashland, Virginia. www.flexicell.com
